

INSTALL GUIDE

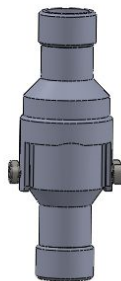

SOALR LIGHTING - PERMITER FENCE INSTALLATION

1

Using a pipe wrench and lockite securely thread the fixture onto one of the poles.

2

Attached the top pole assembly (from #1) to the top of the hinge using the 2 set screws.

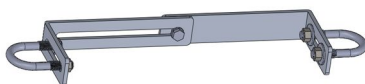

3

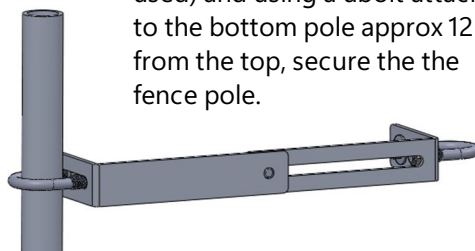

After securing the base plate to the ground, use a pipe wrench and lockite to thread the pole onto the base plate

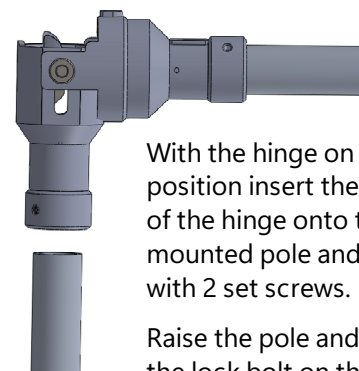

4

Assemble the fence bracket (if used) and using a ubolt attach to the bottom pole approx 12 " from the top, secure the the fence pole.

5

With the hinge on the down position insert the bottom of the hinge onto the base mounted pole and secure with 2 set screws.

Raise the pole and tighten the lock bolt on the hinge.
